

Re: Nitrified Sawdust specifications

Our Nitrified Sawdust consists of the following:

Nitrified Sawdust consists of 100% wood fines and shavings fortified with nitrogen and iron. This product is an excellent amendment for landscapers due to the fact that the nitrogen and iron are major nutrients to the plants. This product is compliant with SB 1383. Has a rough weight of 530 pounds per cubic yard.

- **Nitrified Sawdust is dark brown in color**
- **The particle sizes range from 0"- 1/4"**
- **The average full load size is 90 cy**

Sincerely,

David Ray
