

Re: Black Gorilla Hair product specifications

Our Black Gorilla Hair consists of the following:

Black Gorilla Hair is derived from raw redwood bark ground to size. Redwood bark is a fibrous bark and is stringy in appearance. This bark is an excellent ground cover for uneven surfaces. This product is very popular on commercial projects because it is one of the more economically priced ground covers. Colored with a black non-toxic dye.

- **Black Gorilla Hair is black in color**
- **The particle sizes range from 1.5"- 6"**
- **The average full load size is 75 cy**

Sincerely,

David Ray
