Re: **Mini Fir Bark**

To whom it may concern:

Mini Fir Bark is ground and screened to a 1/4" inch size. This is one of our premium Fir products. It helps the soil retain moisture and acts as a weed barrier. Mini Bark is an excellent ground cover not only for its tailored appearance, but also, as the bark decomposes, it naturally amends the soil.

- **Mini Fir Bark is reddish brown in color**
- **The particle size is 1/4"**
- **The average full load size is 100 cy**

Sincerely,

David Ray
